

## **Firearms License Process**

1. In order to start the licensing process you first have to purchase the firearm **(full payment)** then we shall provide you with four license permit forms to fill out, which will be attached with four passport size photos.
2. You would then go to the local government where they shall call you in for an interview and ask about the reasons for needing the firearm. Once this is done you shall be provided with a letter signed by them, saying that they accept your request.
3. Fingerprint verification must be done at the bureau of forensic at the regional police offices.
4. Take all the forms with the letter from the local government and letter of fingerprint clearance to the Officer Commanding District (OCD) office. When the OCD sits down with the district defense and security committee you shall be summoned again.
5. The forms will have to be signed by the OCD, DSO and DC (District Level) and RPC and RC (Regional Level). Shotgun and rifle license finish at regional level. For a pistol license the forms will have to be signed by the DCI (Director of Criminal Investigation) in Dar es Salaam.
6. Once your license has been issued you can then come back to us to collect your firearm, with a withdrawal permit issued by the OCD. If by any chance your license request is rejected then we shall provide you with a full refund.
